LITTLE THEATRE PRESENTS SECOND PLAY

The Little Theatre presented its second play, "Trifles," by Susan Glaspell, at Bay High auditorium Monday night, April 15th.

This second offering was marked by an increased audience of nearly two hundred members and guests whose attention was held steadily by the smooth performance on the stage.

The most significant fact about the production was its near-professional completeness. There was no sign of home-made compromise in the costumes, make-up, or back-ground—no amateurishness of faltering in the performance. This shows not only work and patience, but also proves the competence of this group and reflects particular credit upon Mrs. Beatrice Smith who directed the play.

The setting of the play, a kitchen in a lonely farmhouse where murder has taken place, was convincingly created on the stage, including an old iron wood-burning stove which glowed realistically, and snow falling outside a window over the sink. A bleak winter morning. The stage effects were handled by Joseph Parry, Mrs. C. D. Blair, and Mr. and Mrs. Frank D. Clarke. Make-up was by Mrs. Mary Hatcher.

A neighborly farmer, played by J. A. Weirther, explains the situation to the County Attorney (Keith Creighton) and the sheriff (Clifton Ferrell) while the farmer's wife (Mrs. C. J. Jones) and the sheriff's wife (Mrs. M. L. Backman) listen intently. Throughout these two women show more interest in the housewife "trifles" about the place than they do in the serious business of investigation which is being carried on by the men.

The women are also getting together some personal effects to be taken to the wife who is now being held in jail on suspicion of murdering her husband by knotting a rope around his neck. Circumstantial evidence is strong against the wife, but the investigation is balked by absence of motive.

It is the feminine interest in "trifles" (made fun of by the men) which finally reveals the motive in the form of a dead canary bird with its neck wrung, but lovingly prepared for burial in a pretty sewing box. This discovery is made while the men are outside, and they are left none the wiser as the curtain goes down.

The women held most of the action during the later part of the play, skillfully handling the subtle, but all-important revelation of the character of the man who had been strangled and of his long-suffering wife who had once been young and gay.

Appropriate overture music was provided by a quartette composed of Mrs. J. Briscoe Goldman, Mrs. Catherine Wilson, Rene de Montluzin and Mrs. J. Roland Weston.

DDT NO CONTROL OF ORCHARD MITE

Schenectady, April 17.—The European red mite—a spider smaller than the head of a pin—cannot be controlled by DDT. On the contrary, this fruit tree pest "may even increase in numbers where DDT sprays are used," Dr. Ralph W. Dean of Poughkeepsie, assistant professor of entomology at the Hudson Valley Fruit Investigations laboratory, declared in an address here.

Speaking on the G-E Farm Paper of the Air program over WGY, Dr. Dean said that DDT is "not toxic" to European red mites, while "It is deadly poisonous to certain insects which attack them."

"Two of these insect predators are commonly found in our orchards," he explained, "One is a tiny black ladybird beetle; the other a true bug. At times, they may be the influence which decides whether or not mites will become destructive. If, at such a time, they are killed off by DDT sprays, the mites will increase unchecked. This has happened in many places where DDT sprays were applied."

The mite does its damage indirectly, by feeding on the juices of leaves and slowing down their photosynthetic activity so that they do not manufacture the sugars to produce good fruit, Dr. Dean pointed out.

HANCOCK COUNTY C. OF C. ACTIVITIES

The Helen Ann Products located on Main Street and now managed by Mr. Jacob W. Forbes has just advised that his company has purchased the vacant property on Ne-caise avenue and the L. & N. Railroad adjacent to the Creamery and will erect a modern factory with food packing facilities. Even though this company just started operations, a few months ago their business has increased by leaps and bounds with necessities larger and more modern quarters. The plans for the building are being drawn up and on completion their payroll will be doubled to start with and probably tripled in a few months after beginning operations at their new location.

It is encouraging to note the number of inquiries that we are receiving from different manufacturing companies that want to locate in this County and in this connection the Chamber is now actively engaged in taking advantage of every opportunity as they present themselves and from all indications some of these will materialize in the immediate future and will be an additional asset to the entire community.

It is interesting to note the number of business houses that are actually enlarging their facilities to take care of their increased business. The Globe Laundry headed by Ted Robin is now constructing an entire new building around the old one and on completion will have additional space as well as improved quarters to facilitate handling of their increased business. Kergosien's Brothers, headed by Laurent and Horace Kergosien, are now renovating the rear of their building to take care of additional stock as well as display purposes which is a good indication that this expansion is due to a definite increase in their business.

No doubt about it Hancock County is coming into its own and with the help and cooperation of the entire populace this Chamber looks forward to the day when our County will be outstanding in industry as well as agriculture.

CORN FERTILIZATION ECONOMICAL WAY TO HAVE NEEDED GRAIN

"Most Neglected Crop" Would Yield 65 Bushels From Present Acreage If Adequately Fertilized

State College Miss.—Nitrogen fertilizer for corn is recommended by the Mississippi Experiment Station as a quick and relatively inexpensive method of increasing average yields from around 15 bushels per acre to 25 to 30 bushels per acre.

"In fact," says Dr. Russell Coleman, the station's associate director, "Corn is undoubtedly Mississippi's most neglected crop. About 95 percent of our land is planted to corn, and this crop produces less than any one planted."

"Corn responds so well to fertilizer as any other crop, and perhaps pays the greatest dividends for the fertilizer applied."

With the present methods of planting and cultivating corn, the application of 32 to 40 pounds of nitrogen per acre is recommended by the Mississippi Station, derived from about 200 pounds of nitrate of soda or 100 pounds of ammonium nitrate or its equivalent in nitrogen fertilizer material. A few soils respond to phosphate and potash.

Many tests of corn fertilization have been conducted by the Mississippi station at many locations and over a long period of years. On the basis of these tests, it is said that if the recommended amounts of nitrogen were used on the present corn acreage, Mississippi corn yield could be increased from an average of 15 bushels to at least 25 or 30 bushels per acre.

"Instead of producing only 40 million bushels as at present," said Dr. Coleman, Mississippi could produce at least 65 million bushels on the same acreage. Such an increase would not only help relieve the critical grain shortage but would put at least 26 million dollars in the pockets of Mississippi farmers at a cost of not more than 9 million dollars, thus producing a net profit of 17 million dollars annually."

Nitrogen can be applied effectively to corn either under the crop before planting, or as a side dressing around the crop from the time the plants are from 1 to 3 feet high. An even better practice is to apply half of it around the corn as a side dressing. Experimental results have shown that splitting the application of nitrogen will produce 2 to 3 bushels more corn than either of the other practices.

Magician Entertains

Bay High students enjoyed being hypnotized at the Wednesday assembly period when the P. T. A. presented "Bob" Bovee from Keesler Field who put on a splendid program of slight of hand and hypnotism.

Several of the students were sent into oblivion for the time being but since they do not remember they cannot tell of the sensation they experienced but they enjoyed it and so did the fellow students. The big thing about Mr. Bovee personally is that he did this for the P. T. A. without charge and the organization realized a satisfactory sum for their general fund. Expressions of appreciation for the gallant act on the part of Mr. Bovee.

CANCER CONTROL MONTH

Please keep in mind that this is Cancer Control Month and that now is the time to make your contribution to this serious and wonderful cause. Mrs. W. L. Bourgeois is chairman of this campaign for funds and working with her are Mesdames Claude Monti, A. P. Smith, M. A. Gilmore and E. C. Carriere.

At this time, and at other times too, papers and magazines are filled with information concerning the prevention and cure of this dread disease and the public should inform itself on the work of Cancer Control. Don't toss a few dollars into the collector's hat and say, "Oh, just another drive" for too many YOUNG people have died of this because at the time no cure had been found for it. Work for this fund, talk for this fund, give to this fund for who knows who will be the next to be stricken if there are not funds to take care of it.

Mrs. Bourgeois has set no stated quota but sixty per cent of the amount collected is retained here for the control of the disease in our own county. Already this fund has purchased a surgical table for the Public Health Office. Now every coast unit has a surgical table.

Election of School Board Members

Jackson, Miss., April 13 (Special)—Friday, May 3—the first Friday in May—is the date set by law for the election of county school board members, according to State Supt. J. M. Tubb.

The trustees of the county schools, other than the trustees of municipal separate districts may participate in person in the election. All trustees participating in the election of the county school board member must be qualified electors and the person elected to membership on the county school board shall have the same qualifications required for trustees of consolidated schools.

Mr. Tubb is calling this matter to the attention of the county superintendents of Mississippi by letter and urging them to give proper publicity in the county to this important election. Mr. Tubb also feels that it is very important for the trustees of the county schools to discharge their obligations in the election of good citizens, interested in the schools and general civic improvements. The county school board, Mr. Tubb advises, is one of the most important county boards and is charged with vital responsibilities.

GREATER LOVE NO MAN HATH!

NINETEEN hundred years ago there dwelt in Judea a Man in Whom was united the Divine with the human. He went about doing good to all men, but even His own did not receive Him. Yet, imbued with divine love, He gave up His life in order that we might all be saved and enjoy eternal happiness in the after life. "Greater love than this no man hath, that he giveth His life for a friend!" This is the event which is commemorated today Good Friday, because of the great benefits accrued to mankind by the Passion and death of the Savior.

Mankind in general has forgotten the lesson of Calvary. Today we see the world convulsed because of the lessons of hate which have been taught such great masses of youth and because of the insatiable ambition of men drunk with power and still wanting more. Millions of lives were snuffed out in the flower of their youth because of this hate and these ambitions.

Man must return to the practice of his duty to God and to His fellowmen, and through love and sacrifice approach the foot of the Cross. No time is better than today when all must exert themselves to resist the desires for riches and power, opportunities for attaining which are numerous because of the confusion of the times. We must all be willing to give up some of our comforts and some of our possessions and some of our leisure for our own good and for the good of our fellowman. The greater our sacrifices the better will be the results.

The lesson of Calvary was brought home to us most vividly when our own had to march off to battle. Our sons, our brothers, our husbands and our sweethearts were offering their lives and GIVING THEM that we might all be free. Let us emulate their sacrifices, and in the light of the Cross raised high on Calvary, determine to exert ourselves for the common cause, setting aside all personal gains and selfish desires, so that we may have a just and continuing peace, with liberty for all.

GUARD AGAINST ENVY

NOTHING kills a town or city quicker than a spirit of envy, regardless of how it works. As long as the people of a community are striving to keep ahead of others, with no other goal in view, then that long will the settlement remain a hick village, even if it has people by the thousands.

Fortunately, we are singularly free from an excess of mean-spirited envy, the low-down spite of narrow-minded souls. Most of our people are broad-minded, liberal and unselfish.

It will do us no harm, however, to guard against this insidious poison that saps community good-will. Let us be sure that we hail the good fortune of our friends, that we strive for the common betterment of our citizenship and that, whatever we may have, or be, that we are not embittered by our failure, or another's success.

THE FIGHT ON CANCER

A CAMPAIGN to raise \$12,000,000 for an organized attack on cancer, the second most formidable natural killer of mankind, has been launched by the American Cancer Society and President Truman has designated the month of April as Cancer Control Month.

It is pointed out that forty per cent of the money raised will go to the national program, mostly for coordinated research, while sixty per cent will be used for local programs of education, service and research. The fact that cancer kills 175,000 Americans every year, or one each three minutes, and that the disease took the lives of 607,000 Americans during the war, as compared with the 294,000 dead or missing in combat, illustrates the necessity for some concerted campaign.

The national chairman of the campaign, Eric A. Johnston, says that the American people should understand that thirty to fifty per cent of all cancer cases can be cured, on the basis of present-day knowledge, if the disease is established in its early stages. Surgery and radiation, or a combination of the two, effects a cure of at least thirty per cent of the cancer cases that are detected in the early curable stage. He points out, however, that even when people seek aid at the first sign of cancer, they cannot be saved "unless there are adequate facilities for diagnosis and treatment."

AVOID FAME AND LIVE

IF you want to live to a ripe old age, set your mind against the limelight of fame and forget the effort to achieve a reputation that classifies you with the great and near-great.

This advice is based on the report of Dr. Mapheus Smith, sociologist for the Selective Service System, who studied the life history of those included in "Who's Who in America" and discovered that the vast majority of them did not reach the age promised by life expectancy tables.

Mr. Smith thinks that the "feverishness" of modern times, the strain on those occupying public places and the worry that attaches to responsibility explain the fact that the men and women who achieve reputations are dying close to the age of fifty.

Now...no wheat used in beer or ale

And wheat alone can solve the problem of feeding the world's hungry

Actually wheat has never been a large item in the brewing process—only $\frac{1}{10,000}$ of the entire U. S. wheat crop was used in 1945.

In accordance with United States Government policy, the brewing industry has used no wheat whatever since March 1, 1946.

OTHER MATERIALS CUT 30%

The other grains used have been reduced by 30%—that is, to 70% of the 1945 amount.

Wheat alone can solve the problem of feeding the hungry. The grains to which the industry is now restricted, are of a variety and grade not normally consumed by the people of the world as food.

LESS BEER AND ALE

Altogether, the brewing industry is using 30%

less materials than in 1945. This results in a proportionately lower production. But since the current demand for beer and ale is about 25% greater than a year ago, the real shortage is nearer 50%.

Consequently, your dealer will not be able to supply you with all the beer and ale you would like. We know you will understand the reason for this.

Your attention is earnestly directed to the recommendations of President Truman's Famine Emergency Committee, which are summarized in the box below.

This statement tells in clear, simple terms what each of us individually can do to help during the emergency.

UNITED STATES
BREWERS FOUNDATION

What the President's Famine Emergency Committee asks us all to do

1. Save and share wheat and fat products . . . Go light on all foods that take wheat, fats and oils—save breads, macaroni, cakes, cookies, pastries and deep-fried foods. Use drippings for pan-frying. Save salad oil—use boiled dressings.
2. Buy and serve more plentiful foods . . . Balance diets with the more plentiful foods, such as potatoes, fresh fruits and vegetables.
3. Waste NO food . . . Dress up today's leftovers for tomorrow. Make every crust count with melba toast, crumb-toppings, bread puddings and stuffings. Take no more than you can eat. Clean your plate. Turn in unusable fat salvage promptly.

SWASHBUCKLING EPIC, DONE IN TECHNICOLOR "THE BANDIT OF SHERWOOD FOREST" AT A. & G. THEATRE

Sunday and Monday With
Cornel Wilde and Anita
Louise Featured

Of all the swashbuckling and romantic characters which fiction has to offer, one of the most, if not the most, fascinating is Robin Hood. Celebrated on the screen by Douglas Fairbanks in the silent era and later by Errol Flynn in sound and Technicolor, Columbia Pictures is once more bringing a thrilling story of this famed character and his doughty band to his many fans, but with a new character added—the son of Robin Hood.

Cornel Wilde, the current matinee idol is this son. The Technicolor picture, is called, "The Bandit of Sherwood Forest," and with Anita Louise, Jill Esmond and Edgar Buchanan in the featured roles, it will come to the A. & G. Theatre Sunday and Monday.

Advance reports on "The Bandit of Sherwood Forest" are glowing. Tribute is paid to its sweeping spectacle to its glorious color; to its thrilling action; to its romantic adventure; to its writers, cast and direction.

In the role of Robert of Nottingham, son of Robin Hood, preview snappers go all out for Cornel Wilde. Everyone expected him to hit the high places of movie heroes after his magnificent performance in Columbia's "A Song to Remember," but reports say that he has exceeded the expectations of his most ardent admirers. His swordplay is sensational, and his love scenes with Anita Louise are as gallant and tender as they should be. This new type of role establishes Wilde as a versatile and great actor.

Based on the novel, "Son of Robin Hood," by Paul A. Castleton, the story of "The Bandit of Sherwood Forest" tells of the thrilling rescue of the young King Henry 111 of England (Maurice Tauzin) after being imprisoned by the villainous Regent (Henry Daniell).

In the process, there are many exciting moments of swordplay and hard riding by Robin Hood's trusty followers, the storming of castle walls until the tense climax of Robert's duel with the Regent.

FOR MORE AND BETTER . . .

Telephone Service

MORE equipment—more people—more of everything is being added as fast as possible to furnish more and better service.

During the year, central office equipment and other types of telephone plant will be added in nearly every place served by us. In many other places new buildings will have to be constructed or enlarged and equipment installed, before those now waiting for telephones can be served.

In the meantime, central offices are crowded with more calls than ever before. As a result, you may sometimes experience delays on your calls.

When that happens, you can help by answering your telephone promptly and when you make a call by giving the other party at least a minute's time to answer before hanging up. It will also help if you will always make sure of the number by looking it up in the directory before making a call.

Telephone folks are trying hard to give you good service with a smile and appreciate your cooperation.

ORTIE THEATRE SUNDAY-MONDAY "BECAUSE OF HIM"

Deanna Durbin, Franchot
Tone, Charles Laughton in
Cast

Deanna Durbin appears in a gay comedy role again in her new Universal picture, "Because of Him," which plays Sunday and Monday at the Ortie Theatre.

Co-starring with Miss Durbin are two of her former leading men, Charles Laughton and Franchot Tone, while the supporting cast includes the well-liked Stanley Ridges, Donald Meek and Helen Broderick.

Laughton was seen with Deanna in "It Started With Eve," while Tone was her leading man in "His Butler's Sister."

In the story, Deanna portrays a waitress who aspires to become a stage actress. Laughton is a famous footlight ham and Tone a wolfish playwright.

Miss Durbin sings three numbers, which may well prove to be among the most popular she has done. They are "Lover," by the famed team of Rodgers and Hart, Tosti's "Goodbye" and "Danny Boy."

Metropolitan Background
Like her last picture, "Lady on a Train," locale of the new film is New York City.

As part of Miss Durbin's plan to continue varying her characterizations, her wardrobe, hairdo and makeup are similar in style to those she used before her venture into melodrama. The star is stressing versatility in selection of her roles. "Because of Him" was directed by Richard Wallace, director of Shirley Temple's "Kiss and Tell." Felix Jackson, the producer responsible for Miss Durbin's varied stories in the past few years, served as producer on her new film.

Preceding the ceremony, Rev. W. W. Fordham sang "I Love You Truly," accompanied at the piano by Fred Henley, who also played the traditional wedding march.

The bride chose as her maid of honor, Miss Ernestine Henley, who wore a dress of pink linen and a corsage of pink carnations. She also wore pink carnations in her hair. Miss Odessa Taylor, bridesmaid, wore a dress of blue linen and her flowers were identical to those of the maid of honor.

Best man was Ralph Dawsey, cousin of the bride, and Richard Johnson was groomsmen.
